biophoton light therapy accessory.

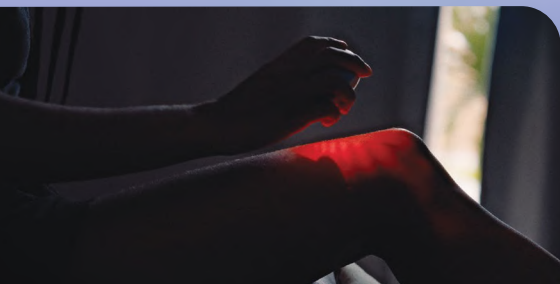

# LIGHTING UP YOUR LIFE

The human body is an energetic forcefield. Every second of every day, cells send out electromagnetic waves of light called biophotons (from the Greek words for 'life' and 'light') that carry vital information. Biophotonic light acts as a communication network, but the more biophotons the body emits in its 'light signature', the more imbalance is indicated in the body.

A healthy, balanced body produces few biophotons. Bio Light 3 supports the body by stabilising the light signature and promoting well-being. Bio Light 3 stimulates the energy meridians in the body to revitalise 'chi' (or life energy), improves mood, alleviates pain, boosts immunity, and restores balance. Its benefits can be further enhanced by the powerfully harmonising Bio Disc 3.

THE SCIENCE OF NATURE

**“ I served my country for four years. I used to work at night and my body adapted to not sleeping at night. When I bought Bio light-3 and started using it at night to sleep, it made me sleep deeper and stress free. Amezcua Bio Light-3 has helped me and my family tremendously. ”**

# COLOUR OF WELLNESS

Developed with leading scientific experts, Bio Light 3's innovative design targets physical, mental and emotional wellbeing through a spectrum of light, each colour offering specific beneficial qualities. Intended for use at key energy centers – or meridians – in the body, Bio Light 3 is a safe and non-invasive yet powerful way to restore whole-body health through nature's energetic and light frequencies.

## What is light therapy?

Put simply, light therapy assists the body to regulate bioenergy, by helping lower the biophoton emissions that signify stress, sickness and imbalance. Biophoton therapy with Bio Light 3 relieves pain, promotes immunity and healing, and improves overall wellbeing.

**“ Previously, I had a bad knee injury and doctors asked me to learn to live with it for the rest of my life. The only option that doctors gave me was to reduce activities that impact my knee and manage my pain. With the help of Bio Light 3 and a fitness coach, I recovered from this bad knee injury in less than 45 days. ”**
