RESTORING BALANCE IN TODAY'S BUSY LIFESTYLES

As energy beings, each of us is surrounded by our own unique biofield that constantly interacts with the energies of the elements around us. In today's connected and fast-paced world, the body's biofield is under constant pressure from exposure to harmful electromagnetic frequencies (EMF) and wireless radiation from cell phones, 5G masts, wireless routers and more.

That's why for many people, depleted and inconsistent energy levels, low mood, anxiety, depression, and lowered immunity have become everyday struggles. But it doesn't have to be this way.

Chi Pendant 4 protects restores balance, and promotes 'chi' (life energy) through innovative wearable health technology that incorporates universally appealing visual design and powerful energy-transforming properties.

INSPIRED BY NATURE'S GEOMETRY

Amezcuca's legacy of creating ground-breaking energy harmonisation wellness solutions is crowned by our proprietary Amezcuca Resonance Technology (ART), which draws on the laws of resonance to interact with the human biofield and transform subtle energetic frequencies into wellbeing.

Developed with world-renowned scientific experts, Chi Pendant 4 is ART in action. Underneath the timeless 'flower of life' geometric design is an embedded ART wafer activated by exposure to specific energetic frequencies. This acts as an energy carrier, to encourage and reinforce similar health-giving energies in the wearer's body. Meanwhile, the copper octagon insert adds a harmonising effect. As a result, the body is empowered to perform at its peak, with greater resilience to stressors in the atmosphere and in daily life.

WHO SHOULD WEAR CHI PENDANT 4?

For most people, EMFs and other energetic pollutants like 5G radio waves are a constant and real threat to health. And, as we become increasingly dependent on wireless technologies to assist our everyday lives, protection from these harmful energies has never been more important.

Chi Pendant 4 is visually appealing and comfortable, making it suitable for all ages and styles. It is particularly recommended if you:
