It is time you lead the change you wish to see in the world!

MYQLEARN's extensive catalog of courses designed to help you succeed and channel the right change.

BACHELOR IN INFORMATION TECHNOLOGY: CYBER SECURITY

The Bachelor in Cyber Security program delivers the knowledge and skills to protect computer systems and networks from cyber threats, such as hackers, malware and viruses. You will also learn how to investigate and analyze digital evidence of cyber crimes, using various tools and techniques. Delivered via eLearning it is ideal for candidates with practical experience who do not possess the appropriate qualifications, aiming to obtain them by expanding and formalizing knowledge in the various fields of Cyber-Security. The program is strongly oriented towards practical application, rather than theory. It is a combination of academic content adapted for professionals, coupled with extensive industry related exposure.

BACHELOR IN INFORMATION TECHNOLOGY

The Bachelor in IT program will also prepare you for the rapidly changing and evolving IT industry. You will be exposed to the latest trends and technologies in the field, such as artificial intelligence, cloud computing, blockchain, internet of things, and more. You will also have the opportunity to work on projects and assignments that simulate real-world scenarios and challenges. Additionally, you will have the chance to network with peers and industry professionals who can offer you valuable insights and guidance.

BACHELOR IN BUSINESS ADMINISTRATION

The BBA will expand and deepen your understanding and mastery of the most relevant business disciplines. The program is strongly oriented towards real-world application, rather than theory – a highly topical blend of academic content adapted for the experienced working professional. Graduates of this program may advance into SMC's online MBA program. The online program is intellectually rewarding and has been designed by top academicians and business leaders. It strongly supports self-paced learning and provides unparalleled flexibility. It forms a cornerstone of the program's performance management and trains your feedback-, responsibility-, timing-, and teamwork skills.

MASTER'S IN BUSINESS ADMINISTRATION

This program is ideal for high potentials that strive to lead and oversee operations, as well as those who run their own business and need to have a thorough understanding of the tasks executed by employees in different departments. The general character of the program will give you efficient tools for transforming ideas and talents into a successful business. The work-placement advantage of the MBA is its widely accepted character, which therefore allows you to embed yourself into various fields in corporate management. The online MBA program is intellectually challenging and has been designed by top academicians and business leaders. It strongly supports self-paced learning and provides unparalleled flexibility. Peer review is strongly promoted. It forms a cornerstone of the program's performance management and trains your feedback-, responsibility-, timing-, and teamwork skills.
